(Contd. of page 2)

#### **SECTION 4: First aid measures**

• 4.1 Description of first aid measures

- General information: Immediately remove any clothing soiled by the product.
- After inhalation:

Supply fresh air and to be sure call for a doctor.

- In case of unconsciousness place patient stably in side position for transportation.
- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

- After swallowing: Drink plenty of water and provide fresh air. Call for a doctor immediately.
- 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.
- · 4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

#### **SECTION 5: Firefighting measures**

#### · 5.1 Extinguishing media

· Suitable extinguishing agents:

Use fire extinguishing methods suitable to surrounding conditions.

Foam ( alcohol resistent), carbon dioxide, dry powder, water spray.

• For safety reasons unsuitable extinguishing agents: Water jet.

- 5.2 Special hazards arising from the substance or mixture No further relevant information available.
- · 5.3 Advice for firefighters
- · Protective equipment: In case of fire: breathing protection with independent air supply.

#### **SECTION 6:** Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures Keep away non-protected persons. Ensure adequate ventilation.
- 6.2 Environmental precautions: Inform respective authorities in case of seepage into water course or sewage system.

Do not allow to enter sewers/ surface or ground water.

• 6.3 Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

- · 6.4 Reference to other sections
- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

# SECTION 7: Handling and storage

• 7.1 Precautions for safe handling Only store in original containers.

• Information about fire - and explosion protection: No special measures required.

· 7.2 Conditions for safe storage, including any incompatibilities

· Storage:

- Requirements to be met by storerooms and receptacles: Protect from frost.
- · Information about storage in one common storage facility: Store separate from eatables.
- Further information about storage conditions: Keep container tightly sealed.
- Storage class: VCI: 10
- 7.3 Specific end use(s) No further relevant information available.

Bautenschutz System

### SECTION 8: Exposure controls/personal protection

- Additional information about design of technical facilities: No further data; see item 7.
- · 8.1 Control parameters
- · Ingredients with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

- · Additional information: The lists valid during the making were used as basis.
- · 8.2 Exposure controls
- · Personal protective equipment:
- General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.
- **Respiratory protection:** Not required if good ventilation.
- Protection of hands:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Use protective gloves. Nitrile gloves wear with a layer thickness of at least 0.4 mm.

(Breakthrough time> 480 min -. Gisbau.de see also www)

· Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Wear safety gloves made of nitrile rubber with a thickness < 0.4 mm (penetration time> 480 min - see also www.gisbau.de

· Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

- Eye protection: Tightly sealed goggles
- · Body protection: Protective clothing.

General Information	physical and chemical properties	
Appearance:		
Form:	Fluid	
Colour:	yellowish	
Odour:	weak, characteristical	
pH-value:	<i>n.a.</i>	
Change in condition		
Melting point/Melting r	ange: Undetermined.	
Boiling point/Boiling ra		
Flash point:	ca. 140 °C	
Ignition temperature:	450 °C	
Self-igniting:	Product is not selfigniting.

Trade name: HADALAN EG145 13E, Komp. A

		(Contd. of page 4)
• Danger of explosion:	Product does not present an explosion hazard.	
• Vapour pressure at 50 °C:	5 hPa	
· Density at 20 •C:	1.12 g/cm <sup>3</sup>	
· Solubility in / Miscibility with water:	Not miscible or difficult to mix.	
<ul> <li>Viscosity: Dynamic at 20 °C:</li> <li>9.2 Other information</li> </ul>	600 mPas No further relevant information available.	

## SECTION 10: Stability and reactivity

• 10.3 Possibility of hazardous reactions Exothermic reactions with amines. Rapidly process after adding the hardener, as in the curing high temperatures can be reached.

- 10.4 Conditions to avoid No further relevant information available.
- · 10.5 Incompatible materials:

Before strongly acidic and alkaline materials as well as oxidizers away in order to avoid exothermic reactions.

· 10.6 Hazardous decomposition products:

At higher temperatures may produce carbon dioxide, carbon monoxide and nitrogen oxides.

## **SECTION 11: Toxicological information**

- · 11.1 Information on toxicological effects
- · Acute toxicity:
- · Primary irritant effect:
- on the skin: Irritant to skin and mucous membranes.
- on the eye: Irritating effect.
- · Sensitisation: Sensitisation possible through skin contact.

· Additional toxicological information:

The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version: Irritant

# **SECTION 12: Ecological information**

- · 12.1 Toxicity
- · Aquatic toxicity: No further relevant information available.
- · 12.2 Persistence and degradability No further relevant information available.
- 12.3 Bioaccumulative potential No further relevant information available.
- · 12.4 Mobility in soil No further relevant information available.
- Ecotoxical effects:
- · Remark: Toxic for fish
- · Additional ecological information:
- · General notes:

Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water

- Do not allow product to reach ground water, water course or sewage system.
- Danger to drinking water if even small quantities leak into the ground.

Also poisonous for fish and plankton in water bodies.

· 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

· National regulations:

• Waterhazard class: Water hazard class 2 (Self-assessment): hazardous for water.

· Other regulations, limitations and prohibitive regulations

For activities involving exposure to uncured epoxy resins and contact on the skin or respiratory are causing regular preventive medical examinations.

This product is subject to the Directive 2004/42/EC.

EU limit value of this product is in ready to use condition: 500 g / l (2010). The product contains: 0 g / l VOC.

• 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

#### **SECTION 16: Other information**

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

#### · Relevant phrases

- H315 Causes skin irritation.
- H317 May cause an allergic skin reaction.

H319 Causes serious eye irritation.

H411 Toxic to aquatic life with long lasting effects.

R36/38 Irritating to eyes and skin.

R38 Irritating to skin.

*R43 May cause sensitisation by skin contact.* 

R51/53 Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
