Safety data sheet according to 1907/2006/EC, Article 31

Printing date 21.08.2020 Revision: 20.08.2020

SECTION 1: Identification of the substance/mixture and of the company/undertaking

- · 1.1 Product identifier
- · Trade name: HADALAN DQ0308 89M / DQ0712 89M
- · Article number: 40541, 40232
- · **UFI**: 9XF0-70VC-H00M-XMKX
- · 1.2 Relevant identified uses of the substance or mixture and uses advised against

No further relevant information available.

- · Application of the substance / the mixture Dekorquartz zur dekorativen Oberflächengestaltung
- · 1.3 Details of the supplier of the safety data sheet
- Manufacturer/Supplier:

Sievert Baustoffe GmbH & Co. KG

Mühleneschweg 6 D-49090 Osnabrück

Tel.: +49 2363 5663-0

· Further information obtainable from:

Abteilung: Produktsicherheit Tel.. +49 2363 5663-0

info-hahne@sievert.de

1.4 Emergency telephone number:

Giftinformationszentrum Nord (GIZ Nord) Universität Göttingen,

Tel.: 0551-19240

SECTION 2: Hazards identification

- · 2.1 Classification of the substance or mixture
- · Classification according to Regulation (EC) No 1272/2008

The product is not classified, according to the CLP regulation.

· Additional information:

Depending on the handling and processing of the product, airborne respirable crystalline silica is possible. Long Prolonged and / or massive inhalation of respirable crystalline silica can cause silicosis disease (silicosis).

Principal symptoms of silicosis are cough and breathing problems / wheezing. For exposure in dusty atmosphere monitoring / control to comply with the country-specific limit values laid down is necessary (see appendix).

- · 2.2 Label elements
- · Labelling according to Regulation (EC) No 1272/2008 Void
- · Hazard pictograms Void
- · Signal word Void
- · Hazard statements Void
- · 2.3 Other hazards
- · Results of PBT and vPvB assessment
- · PBT: Not applicable.
- · vPvB: Not applicable.

SECTION 3: Composition/information on ingredients

- · 3.2 Chemical characterisation: Mixtures
- · Description: Quartz sand / quartz sand crushed basalt mixture
- · Dangerous components: Void

(Contd. on page 2)

Printing date 21.08.2020 Revision: 20.08.2020

Trade name: HADALAN DQ0308 89M / DQ0712 89M

(Contd. of page 1)

· Additional information: For the wording of the listed hazard phrases refer to section 16.

SECTION 4: First aid measures

- · 4.1 Description of first aid measures
- · General information: No special measures required.
- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact:

Immediately wash with water and soap and rinse thoroughly.

No special actions required.

After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

· After swallowing:

Drink plenty of water and provide fresh air. Call for a doctor immediately.

Not poisonous.

- 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.
- 4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

SECTION 5: Firefighting measures

- · 5.1 Extinguishing media
- Suitable extinguishing agents:

Use fire extinguishing methods suitable to surrounding conditions.

not applicable, product is not flammable

not applicable, product is not flammable

- 5.2 Special hazards arising from the substance or mixture No further relevant information available.
- · 5.3 Advice for firefighters
- · Protective equipment: No special measures required.

SECTION 6: Accidental release measures

- · 6.1 Personal precautions, protective equipment and emergency procedures Not required.
- **6.2 Environmental precautions:** No special measures required.
- · 6.3 Methods and material for containment and cleaning up: Pick up mechanically.
- · 6.4 Reference to other sections

No dangerous substances are released.

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

SECTION 7: Handling and storage

- · 7.1 Precautions for safe handling No special measures required.
- · Information about fire and explosion protection: No special measures required.
- · 7.2 Conditions for safe storage, including any incompatibilities
- · Storage:
- · Requirements to be met by storerooms and receptacles: Store dry.
- · Information about storage in one common storage facility: Not required.
- · Further information about storage conditions: None.
- · 7.3 Specific end use(s) No further relevant information available.

GE

Printing date 21.08.2020 Revision: 20.08.2020

Trade name: HADALAN DQ0308 89M / DQ0712 89M

(Contd. of page 2)

SECTION 8: Exposure controls/personal protection

- · Additional information about design of technical facilities: No further data; see item 7.
- · 8.1 Control parameters
- · Ingredients with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

- · Additional information: The lists valid during the making were used as basis.
- · 8.2 Exposure controls
- · Personal protective equipment:
- · General protective and hygienic measures:

The usual precautionary measures are to be adhered to when handling chemicals.

Respiratory protection:

If the permitted exposure limits in the workplace is a respirator in accordance with European and national regulations as EN bear 149th

· Protection of hands:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

People who suffer from dermatitis or have sensitive skin, appropriate protective measures (ie. Gloves wear, barrier cream). After No special requirements. For hands - see below. People who suffer from dermatitis or have sensitive skin, appropriate protective measures (eg. As protective clothing, barrier cream).

· Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Protective gloves, protective cream

Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

Not mandatory.

• Eye protection: bear in areas with a risk of eye injuries protective goggles according to EN 166th

SECTION 9: Physical and chemical properties

<u> </u>	* *	
9.1 Information on basic physical a	nd chemical properties	
· General Information		
· Appearance:		
Form:	Solid	
Colour:	According to product specification	
Odour:	Characteristic	
Odour threshold:	Not determined.	
pH-value:	Not applicable.	
Change in condition		
Melting point/freezing point:	1,713 °C	
Initial boiling point and boiling ra	ange: >999 °C	
Flash point:	Not applicable.	
Flammability (solid, gas):	Not determined.	
Decomposition temperature:	Not determined.	

(Contd. on page 4)

Printing date 21.08.2020 Revision: 20.08.2020

Trade name: HADALAN DQ0308 89M / DQ0712 89M

	(Contd. o	of pag
Auto-ignition temperature:	Product is not selfigniting.	
Explosive properties:	Product does not present an explosion hazard.	
Explosion limits:		
Lower:	Not determined.	
Upper:	Not determined.	
Vapour pressure:	Not applicable.	
Density at 20 °C:	2.2 g/cm^3	
Relative density	Not determined.	
Vapour density	Not applicable.	
Evaporation rate	Not applicable.	
Solubility in / Miscibility with		
water:	Insoluble.	
Partition coefficient: n-octanol/water:	Not determined.	
Viscosity:		
Dynamic:	Not applicable.	
Kinematic:	Not applicable.	
Solvent content:		
Solids content:	100.0 %	
9.2 Other information	No further relevant information available.	

SECTION 10: Stability and reactivity

- · 10.1 Reactivity No further relevant information available.
- · 10.2 Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · 10.3 Possibility of hazardous reactions No dangerous reactions known.
- · 10.4 Conditions to avoid No further relevant information available.
- · 10.5 Incompatible materials: No further relevant information available.
- · 10.6 Hazardous decomposition products: No dangerous decomposition products known.

SECTION 11: Toxicological information

- · 11.1 Information on toxicological effects
- · Acute toxicity Based on available data, the classification criteria are not met.
- · Primary irritant effect:
- · Skin corrosion/irritation Based on available data, the classification criteria are not met.
- · Serious eye damage/irritation Based on available data, the classification criteria are not met.
- Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- · Repeated dose toxicity

The longer-term inhalation of respirable crystalline silica (quartz).

Prolonged and / or massive exposure to dust containing respirable crystalline silica, can cause silicosis. In this disease there is a nodular pulmonary fibrosis caused by inhalation and deposition of mineral dust. In 1997, the International Society for Research on Cancer (International Agency for Research on Cancer / IARC) concluded that occupational exposure to crystalline silica can cause lung cancer in humans. However, the IARC stated limitation that this still applies all types crystalline silica neither for all forms of exposure. (IARC Monographs on the evaluation of carcinogenic risks of chemicals to humans, Silica, silicates dust and organic fibers, 1997, Volume 68, IARC, Lyon, France.) In June 2003, the EU Scientific Committee came for Occupational Exposure Limits to Chemical Agents (SCOEL) concluded that the main effect of inhaling silica dust respirable crystalline human silicosis. "There are sufficient information to conclude before that an increased relative risk of lung cancer for people who are suffering from silicosis. In quarries or in the ceramic industry employed persons exposed to silica dust, but are not suffering from silicosis, are obviously of this increased risk of lung cancer is not affected. Therefore it can be assumed that the onset of silicosis will also

(Contd. on page 5)

Printing date 21.08.2020 Revision: 20.08.2020

Trade name: HADALAN DQ0308 89M / DQ0712 89M

(Contd. of page 4)

reduce the cancer risk ... "(SCOEL SUM Doc 1994-final, June 2003). so there are numerous indications that increased cancer risk would be limited to people is, who are already suffering from silicosis. worker protection against silicosis should by respecting the existing regulatory occupational exposure limit values and if necessary be ensured by implementing additional risk management measures.

- · CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)
- · Germ cell mutagenicity Based on available data, the classification criteria are not met.
- · Carcinogenicity Based on available data, the classification criteria are not met.
- · Reproductive toxicity Based on available data, the classification criteria are not met.
- · STOT-single exposure Based on available data, the classification criteria are not met.
- · STOT-repeated exposure Based on available data, the classification criteria are not met.
- · Aspiration hazard Based on available data, the classification criteria are not met.

SECTION 12: Ecological information

- · 12.1 Toxicity
- · Aquatic toxicity: No further relevant information available.
- · 12.2 Persistence and degradability No further relevant information available.
- · 12.3 Bioaccumulative potential No further relevant information available.
- · 12.4 Mobility in soil No further relevant information available.
- · Additional ecological information:
- · General notes: Not hazardous for water.
- · 12.5 Results of PBT and vPvB assessment
- · **PBT:** Not applicable.
- · vPvB: Not applicable.
- · 12.6 Other adverse effects No further relevant information available.

SECTION 13: Disposal considerations

- · 13.1 Waste treatment methods
- · Recommendation Smaller quantities can be disposed of with household waste.
- · European waste catalogue

17 09 04 mixed construction and demolition wastes other than those mentioned in 17 09 01, 17 09 02 and 17 09 03

- · Uncleaned packaging:
- · Recommendation: Disposal must be made according to official regulations.

14.1 UN-Number		
ADR, ADN, IMDG, IATA	Void	
14.2 UN proper shipping name		
ADR, ADN, IMDG, IATA	Void	
14.3 Transport hazard class(es)		
ADR, ADN, IMDG, IATA		
Class	Void	
14.4 Packing group		
ADR, IMDĞ, İATA	Void	
14.5 Environmental hazards:	Not applicable.	
14.6 Special precautions for user	Not applicable.	

Printing date 21.08.2020 Revision: 20.08.2020

Trade name: HADALAN DQ0308 89M / DQ0712 89M

(Contd. of page 5)	
of	
Not applicable.	
No hazardous material according to transport regulations.	
Void	

SECTION 15: Regulatory information

- · 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
- · Directive 2012/18/EU
- · Named dangerous substances ANNEX I None of the ingredients is listed.
- · National regulations:
- · Waterhazard class: Generally not hazardous for water.
- · 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

· Abbreviations and acronyms:

RID: Règlement international concernant le transport des marchandises dangereuses par chemin de fer (Regulations Concerning the International Transport of Dangerous Goods by Rail)

ICAO: International Civil Aviation Organisation

ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)

IMDG: International Maritime Code for Dangerous Goods

IATA: International Air Transport Association

GHS: Globally Harmonised System of Classification and Labelling of Chemicals

EINECS: European Inventory of Existing Commercial Chemical Substances

ELINCS: European List of Notified Chemical Substances

CAS: Chemical Abstracts Service (division of the American Chemical Society)

PBT: Persistent, Bioaccumulative and Toxic vPvB: very Persistent and very Bioaccumulative
